

SIGN PERMIT APPLICATION GUIDE

July, 2014

This brochure provides an overview of the steps involved in the Sign Permit application process. This is a general guide only. It is not meant to replace bylaws or other legal documents. Applicants are advised to meet with the Planning Department to discuss their application.

WHAT IS A SIGN PERMIT?

The Town of Gibsons has a Sign Bylaw (No. 526, 1986) that specifies types, heights, and areas of signage permitted to be installed on a property within the Town of Gibsons.

A Sign Permit is applied for when a property falls within a Development Permit Area as designated in the Town's Official Community Plan (OCP) and no Development Permit has been issued on the property.

APPLICATION FEE

At the time of submitting the application, you are required to pay the application fee. This fee is non-refundable and is intended to recover a portion of the costs of processing the application. The current fee for a Sign Permit application is \$25.

STEPS TO SIGN PERMIT ISSUANCE

STEP 1 – PRE-APPLICATION MEETING

Before proceeding with a Sign Permit application, owners are encouraged to meet with staff to review all options related to their proposal.

Before submitting an application, you are advised to review your proposed plans to:

- Ensure that your proposal meets the requirements of the [Sign Bylaw](#).

STEP 2 – SUBMISSION OF APPLICATION

A completed application form, with necessary attachments, is to be submitted to the Planning Department and must include:

- Completed application form signed by registered owner of the property. If applicable, written authorization for an agent to act on behalf of the registered owner(s) of the subject property may be required.
- Payment of Application Fee (including HST).
- Detailed site plans are required for the application. Complete plans will include:
 - Certificate of Title: Must be dated within 30 days of application;
 - Two complete sets of drawings and one digital set;
 - Two sets of fully dimensioned metric plans prepared by a B.C. Land Surveyor (with 11" x 17" reduced copy) if applicable. Must include:
 - Gross site area, dimensions, & use of all lots;

- All existing structures on the property & distances from existing or proposed lot lines;
- Location of roads, lanes, walkways, and park dedications;
- Location and purpose of existing easements, rights-of-way or covenants on the property; and,
- Contour Plan from a topographic survey.
- Proposal Summary: Written summary of how the proposed development conforms to each of the established Development Permit Area Guidelines for signage listed in the OCP (Sections 14.2 to 14.7).
- Sign Permit Details: One set of fully dimensioned (8 ½" x 11") plans, plus one set of digital drawings required, including:
 - **Form and Character or Revitalization Area Development Permit (DPA No. 3, 4, 5, & 6)**
 - Location, areas, and dimensions of existing signs;
 - Elevation of building walls and dimensions showing the position of the proposed signs and any existing signs (must be to scale);
 - Type of illumination and colours to be used;
 - Letter of Assurance from a Professional Engineer (if requested by the Building Inspector); and,
 - A project summary sheet outlining the area of each type of sign on the property, the number of each type of sign (ie., Fascia), and other relevant data. The project summary sheet should include totals for existing and proposed signage.
- Proof of Insurance: Suspended signs and sandwich boards that are to be located on public property must have proof of insurance of at least \$2 million indemnifying the Town against all loss, cost, damage or expense incurred against the Town through the placement of the sign.

STEP 3 – APPLICATION REVIEW AND REFERRAL TO AGENCIES

The Planning Department reviews the proposal and may refer it to other municipal departments, or outside referral agencies for comment (allow six weeks for referral process). The Municipal Planner will advise if a Development Permit application is required.

STEP 4 – ISSUANCE OF THE SIGN PERMIT

APPLICATION TIMING

The Sign Permit process (when a Development Permit is not required) requires one to four weeks.

Time for each step of the application is dependent on the complexity of the application, the thoroughness of the initial application submission, and the consistency of the application with Town bylaw requirements. Applicants are advised to meet with early in the project design.

WHAT'S NEXT

Apply for a Building Permit. At the time of the Building Permit application, you may need to hire consultants, such as an independent civil engineering firm to design the on-site servicing when it is not in place and assist with the application requirements.
