March 1, 2018

Dear Property Manager/Strata Council,

As you may know, the Town of Gibsons is implementing a universal organic curbside pickup program on April 1, 2018. At multi-family residences, the smooth initiation of this program will require some advance preparation.

First, we ask that you please contact Grayco Disposal at organics@graycodisposal.com to arrange delivery of your strata's Starter Kits. These include individual and communal organic collection bins, as well as educational information that will aid in the proper sorting of waste items. Delivery of the Starter Kits is tentatively scheduled to begin March 19, 2018, so please contact Grayco prior to March 15, 2018.

Grayco is also available to help with determining where best to place the new 65-gallon communal bin(s) (which measure 26" wide, 26" deep and 43" high), as well as to offer advice regarding wildlife-resistant enclosures, which are required by law for both your organics and garbage bins.

If you would like advice on these issues, please contact Lance at Grayco Disposal at 604.885.4700.

Finally, we ask for your patience and cooperation as we implement this important community initiative. We know there will be some bumps along the way, but believe the economic and environmental benefits the Town of Gibsons will realize from the successful launch of this program will make any short-term challenges more than worthwhile.

Sincerely,

Dave Douglas
Director of Finance

P.S. Further information about the rollout of this program may be found on the Town's website at www.gibsons.ca or by calling Grayco Disposal at 604.885.4700.
