

**Schedule B**  
**Commercial Refuse Container**

The following criteria applies to a commercial refuse container:

1. The lid or lids, and any man doors, must close tightly to prevent access by Wildlife and/or Dangerous Wildlife.
2. The lid or lids, and any man doors, must be:
  - a) self-closing; or
  - b) self-latching; or
  - c) capable of being completely closed and secured with a latching device.
3. The latches for the lid or lids and bag removal must be such that an adult bear using its claws will be unlikely to reach the latch trigger mechanism.
4. Hinges and latches for lids must be sufficiently strong, and sufficiently affixed to the container, that they cannot be pried open by an adult bear using its claws. As a guideline, a lid that can be dismantled using a crowbar is not sufficient.
5. The container must be sufficiently stable or capable of being so anchored as to prevent tipping by a bear.
6. Container material must be of sufficient strength to prevent Wildlife and/or Dangerous Wildlife from chewing, battering or crushing the container.
